

WHY CONSULTATION GROUP?

Differentiated Learning

Teachers customize teaching strategies to **cater to every individual student's abilities and learning needs**. This ensures that students learn according to their own pace and are never left behind.

1

2

Students Take Ownership Of Their Learning

Students **take more initiative** to raise questions to clarify misconceptions. Students are **responsible** in keeping track of their progress and are constantly **guided towards continuous improvement**.

3

Proven Results

Positive track record of students who have benefited from the programme. These students show **improvement of at least three grades**. Students will be empowered to achieve their fullest potential.

4

Cross-Learning Among Peers

As students find it easy to relate to one another, they can cross-learn effectively. **Learning is enhanced** through engaging discussions. Through social interaction, students **pick up positive learning traits** from role models. Seniors also guide their juniors and share tips and advice to prepare them for upcoming challenges.

5

Aligned to School Curriculum

Special care is taken to ensure that classes are aligned to every students' school curriculum. This ensures that **every class is relevant to students' needs**. For example, if a student has an upcoming test to prepare for, he or she can consult the teacher for revision. Students **do not have to stress over learning additional content** on top of their school demands, unless they are ready to be stretched.
